

## ● Los 25 artículos de Mayor Impacto con Participación de la Universidad de Córdoba en el año 2009

1. "Control of arabidopsis meristem development by thioredoxin-dependent regulation of intercellular transport" Proceedings of the National Academy of Sciences of the United States of America. **Factor de impacto: 9,432**
2. "The high light response in arabidopsis involves aba signaling between vascular and bundle sheath cells" Plant Cell. **Factor de impacto: 9,293**
3. "Jnk signalling modulates intestinal homeostasis and tumourigenesis in mice" The Embo Journal. **Factor de impacto: 8,993**
4. "Surfome analysis as a fast track to vaccine discovery" Molecular and Cellular Proteomics. **Factor de impacto: 8,791**
5. "Adalimumab effectiveness for the treatment of ankylosing spondylitis is maintained for up to 2 years: long-term results from the atlas trial" Annals of the Rheumatic Diseases. **Factor de impacto: 8,111**
6. "The development of assessment of spondyloarthritis international society classification criteria for axial spondyloarthritis (part ii): validation and final selection" Annals of the Rheumatic Diseases. **Factor de impacto: 8,111**
7. "New criteria for inflammatory back pain in patients with chronic back pain: a real patient exercise by experts from the assessment of spondyloarthritis international society (asas)" Annals of the Rheumatic Diseases. **Factor de impacto: 8,111**
8. "The development of assessment of spondyloarthritis international society classification criteria for axial spondyloarthritis (part i): classification of paper patients by expert opinion including uncertainty appraisal" Annals of the Rheumatic Diseases. **Factor de impacto: 8,111**
9. "Critical evaluation of the prostate from cystoprostatectomies for bladder cancer: Insights from a complete sampling with the whole mount technique" European Urology. **Factor de impacto: 7,667**
10. "Stage pt0 in radical prostatectomy with no residual carcinoma and with a previous positive biopsy conveys a wrong message to clinicians and patients: why is cancer not present in the radical prostatectomy specimen?" European Urology. **Factor de impacto: 7,667**
11. "Joint appraisal of the radical prostatectomy specimen by the urologist and the uropathologist: together, we can do it better" European Urology. **Factor de impacto: 7,667**
12. "Solitary fibrous tumour of the prostate identified on needle biopsy" European Urology. **Factor de impacto: 7,667**
13. "Editorial comment on: platelet microparticles: a potential predictive factor of survival in hormone-refractory prostate cancer patients treated with docetaxel-based chemotherapy" European Urology. **Factor de impacto: 7,667**
14. "Editorial comment on: prevalence of a tertiary gleason grade and its impact on adverse histopathologic parameters in a contemporary radical prostatectomy series" European Urology. **Factor de impacto: 7,667**
15. "Overexpression of elav-like protein hur is associated with increased cox-2 expression in atrophy, high-grade prostatic intraepithelial neoplasia, and incidental prostate cancer in cystoprostatectomies" European Urology. **Factor de impacto: 7,667**
16. "Editorial comment on: cytological punctures in the diagnosis of renal tumours: a study on accuracy and reproducibility" European Urology. **Factor de impacto: 7,667**
17. "NQR1 controls lifespan by regulating the promotion of respiratory metabolism in yeast" Aging Cell. **Factor de impacto: 7,554**
18. "Epigenetic silencing of the tumor suppressor microRNA hsa-mir-124a regulates cdk6 expression and confers a poor prognosis in acute lymphoblastic leukemia" Cancer Research. **Factor de impacto: 7,543**
19. "Ros1 5-methylcytosine dna glycosylase is a slow-turnover catalyst that initiates dna demethylation in a distributive fashion" Nucleic Acids Research. **Factor de impacto: 7,479**
20. "Discovery of potent kisspeptin antagonists delineate physiological mechanisms of gonadotropin regulation" The Journal of Neuroscience. **Factor de impacto: 7,178**
21. "The essen stroke risk score predicts recurrent cardiovascular events. a validation within the reduction of atherothrombosis for continued health (reach) registry" Stroke. **Factor de impacto: 7,041**
22. "Single-nucleotide and long-patch base excision repair of dna damage in plantssingle-nucleotide and long-patch base excision repair of dna damage in plants" The Plant Journal. **Factor de impacto: 6,946**
23. "The nodule inception-like protein 7 modulates nitrate sensing and metabolism in arabidopsis" The Plant Journal. **Factor de impacto: 6,946**
24. "Sorptive microextraction for liquid-chromatographic determination of drugs in urine" Trac Trends in Analytical Chemistry. **Factor de impacto: 6,546**
25. "Liquid-phase microextraction techniques for simplifying sample treatment in capillary electrophoresis" Trac Trends in Analytical Chemistry. **Factor de impacto: 6,546**
